

Thinking Ahead

Contingency
Planning

What would you find most helpful?

Is it practical tasks like where to get a contingency plan or get help with it?

Is it financial matters maybe around deputyship?

Is it tools for practitioners? Resources to give you or how best to broach the subject?

Tell us what is important for you!

Where do I have my say?

We would also be grateful to attend other Carers meetings you may know about so we can consult with as many Carers as possible.
