

Surrey People's Group

We meet on the first
Wednesday of every month
10.30am - 12pm

We are people with lived experience of learning disability, autism and acquired brain injury. We are our own organisation and we have won awards for co-production.

We wish to give other **people like us a voice, more opportunities and join together.**

Our goal is to become a **Surrey wide** user-led network where our voices are heard and we **connect to make real change.**

We hold monthly **events to help other people like us.**

At the event we will **talk about different topics that matter to us including digital access, the environment, community inclusion and health inequalities.**
